

Clinical Update for the Dental Team

Saturday, October 3, 2015 | 9:30 a.m. - 3:15 p.m.

Room 071 Apotex Centre (Pharmacy Building) | 750 McDermot Ave. | Winnipeg, Manitoba | University of Manitoba

5 HOURS CDE CREDIT

OVERVIEW

This is the inauguration of a yearly program to be hosted by the College of Dentistry over alumni weekends, purposely developed to debut a potpourri of short, yet powerful presentations given by faculty experts. This program provides an excellent opportunity for the entire dental team to learn about some of the latest clinical techniques, new technologies, significant research and trends in oral healthcare. An informal brunch will allow participants the chance to network with colleagues and build new professional relationships.

THIS PROGRAM WILL BE OF INTEREST TO:

Dentists, dental hygienists, dental assistants and business staff.

FEES

***Brunch included**

Early Bird Fees: Before September 7, 2015

After September 7, 2015

Dentist:	\$200	Dentist:	\$210
Dental Hygienist:	\$100	Dental Hygienist:	\$110
Dental Assistant/ Other:	\$50	Dental Assistant/Other:	\$60

SEATING IS LIMITED! REGISTER EARLY TO AVOID DISAPPOINTMENT.

DISCLOSURE OF CONFLICTS OF INTEREST:

In keeping with accreditation guidelines, instructors participating in this event are required to disclose to the audience any involvement with industry or other organizations that may potentially influence the presentation of the educational material.

REGISTRATION DEADLINE

September 19, 2015

ONLINE REGISTRATION

events.cpdumanitoba.ca/website/index/118361

REFUND POLICY

A registration refund will be made upon written request prior to September 3, 2015. A \$35 administration fee will be retained. No refunds will be made for cancellations after September 3, 2015.

CONTINUING PROFESSIONAL DEVELOPMENT

LEARNING OBJECTIVES

Upon completion of this course, participants should be able to:

- Evaluate and validate the current use of CBCT in orthodontics.
- Identify many quality-of-life issues of older adult clients.
- Recognize scenarios in which orthodontic patients can benefit from collaboration between the general dentist and restorative specialists to enhance esthetic and functional outcomes.
- Explain how stem cells can be used in endodontic/dental regeneration.
- Manage cases of pediatric dental trauma.
- Identify the need for soft tissue augmentation and plan surgical procedures based upon treatment objectives.
- Prevent, diagnose and manage various complications of dento-alveolar surgery.
