

invites you and your hygiene team to attend an exclusive event on

Perio: The engine behind your Successful and Prosperous Dental Practice

Saturday November 28, 2015 - 9am to 3pm

Registration 8:30am

at Holiday Inn, 101 Pacific Ave, Saskatoon

Presented by

Dr. Nematollahi & Dr. Hosseini

Our best dental work is only as good as the foundation on which it's built on. Early detection of periodontal or peri-implant disease is critical to success of your treatment. By utilizing few simple screening tools your dental team can efficiently pinpoint the at-risk patients and provide appropriate care.

Course Information

- Introducing fast and effective screening tools to aid early disease detection around teeth and implants.
- Utilizing the power of "co-diagnosis" to improve patient's case acceptance and compliance
- Periodontal and implant treatment protocols for providing collaborative models of care for your patients
- The role of your dental hygienist in monitoring and maintenance of teeth and dental implants

**Up to 6 CE available!
Fees complimentary!**

**Limited seating. RSVP before
November 21st to reserve your spot today!**

Please call Karen at (306) 721-8181

Snacks and Refreshments will be provided.

About the speakers:

Dr. Mandy Nematollahi

DDS, M.Sc, MDent (perio), FRDC (C)

Dr. Nematollahi is a board certified periodontist and a Fellow of the Royal College of Dentist of Canada. She practices full spectrum of periodontics with special interests in field of implant aesthetics and implant supported full mouth rehabilitations.

Dr. Nematollahi was awarded a fellowship in dental implants at UCLA where she trained under the direct supervision of internationally renowned oral surgeon, Professor Peter Moy. She is a Clinical Assistant Professor at University of British Columbia and pursues her passion of teaching by devoting her time to undergraduate students.

Dr. Nematollahi is a published author in effects of implant surface on tissue behaviour and has been awarded J Tonzetich scholarship for her excellence in research in two consecutive years.

Dr. Nematollahi believes that the key to successful patient care is close collaboration and open communication with the dental team; her referring colleagues, hygienists and lab technicians.

Dr. Hoda Hosseini

DMD, MDent (Perio), FRCDC(C)

Dr. Hosseini is originally from Winnipeg, Manitoba. She is a board certified periodontist and a Fellow of the Royal College of Dentists of Canada.

Dr. Hosseini practices in full periodontal spectrum with special interests in esthetic and functional rehabilitation with the help of dental implants. She is a published author in the field of Peri-implant disease and is passionate about teaching. She lectures extensively and is an educator at the Hands On Training Institute, one of the leading implant training programs for dental professionals.

Dr. Hosseini is dedicated to superior patient care that is based on clear and open communication with her referring doctors as well as timely access to care for her patients.
